

Theeraphat Srikeing (Lay)

CONTACT Phone: 092-773-4468 | Email: talay.teerapat@gmail.com

- SUMMARY**
- Education: 3rd-year Computer Science student.
 - Experience: Hands-on Web & Mobile Application development via university projects.
 - Objective: Passionate about applying technical skills to real-world projects and learning new technologies.
 - Availability: Ready for a 4-month internship (17 August - 17 December 2026).

- EDUCATION**
- Rangsit University | 2023 - 2026**
- Bachelor of Science (B.S.) in Computer Science
- Siam Business Administration Technological College | 2021 - 2023**
- High Vocational Certificate in Digital Business Technology
- Siam Business Administration Technological College | 2018 - 2021**
- Vocational Certificate in Business Computer

- PROJECT**
- Real-time Food & Calorie Detection System (Python | PyTorch | OpenCV)**
- EXPERIENCE**
- Built a real-time webcam video processing system to detect and classify Thai food.
 - Optimized AI model accuracy using Transfer Learning and Fine-tuning techniques.
 - Engineered a calorie calculation feature and structured code for API integration.
- Employee Attendance Management System (Java | SQL)**
- Developed a secure and accurate check-in/check-out tracking system.
 - Designed complex SQL databases to structure and manage time-logging data.
 - Implemented an automated Excel (.xlsx) report export feature for quick data analysis.
- Lottery Marketplace Mobile Application (Flutter | Firebase)**
- Implemented User Authentication and Role-Based Access Control (RBAC) for Admins and Users.
 - Developed product management features (CRUD) and an automatic cart price calculator.
 - Integrated and managed real-time database operations using Firebase.

- SKILLS**
- Programming Languages & Tools**
- Languages:** Java, Python, C++, Dart, JavaScript, HTML/CSS
- Frameworks & Libraries:** Flutter, Node.js, Next.js, PyTorch, OpenCV
- Databases & Tools:** MySQL, MongoDB, Firebase, Figma
